* Notes items that may or may not be available April 2nd, but are expected in April.

** Toys 'R' Us stores will only have the Trivial Pursuit DVD game in an exclusive collector's tin initially. Once that version sells out, they will carry the normal version.

*** Toys 'R' Us Holographic Yoda is only guaranteed to be available at Times Square. There, he will be available free with any \$35 purchase. The other Midnight Madness stores *should* have him, but don't be disappointed if they do not. It's not clear how he will be offered. \$9.99 for purchase or free with \$25 purchase. Either way, he will still be available as planned 4/10 free with a \$25 purchase. We've heard he *might* be available in very limited quantities at non-Midnight Madness stores. It's worth a call, but don't be disappointed if he's not available.
